Putting problems?

Try this!

By: Tom O'Brien Jr., P.G.A

Speed tends to be the biggest problem most people have with putting but occasionally direction can be the culprit. If you are hitting putts right and left focus on the angle the right wrist forms and try to maintain it through out the entire putting stroke (left wrist if you are left handed). When this angle releases prematurely depending upon the timing of the stroke the ball can go right or left. The key word in that last sentence is timing; we want less of that if we want to be consistent. Steve Stricker on the PGA tour is a fabulous example of this if you want to watch someone do this. If anything the angle can increase as you putt but never decrease. Try this and watch those putts track towards the hole!!!

TENNIS:

October 31 WOLH is hosting an HPTA Junior Circuit tennis tournament. It is an entry level tournament designed for players just learning to compete in an organized format.

The entire circuit is available to all junior tennis players not qualified for USTA Champs or Super Champs.

Entry for the circuit is on the Kingwood-Tennis.org website.

Entry deadline is 6:00 p.m. on the Tuesday before each tournament.

These are great starter tennis tournaments for our juniors.
